Our chronology comes from the East as a necessary consequence of Western emigration. The days, as we designate them, commence on the eastern confines them, commence on the eastern comines of Asia, say about Long. 140 deg. east. Wheeling being in Long. 81 deg. west, the difference of longitude between the former and the latter place is 221 deg., equal to 14 hours and 44 minutes difference of time. Therefore, when it is noon at Wheeling, Monday, it is 14 hours and 44 minutes later at Long. 140 deg. east, or 2 o'clock and 44 minutes Tuesday morn-
